Living life on your terms — we are here to help

Long-Term Services and Supports through PA Health & Wellness provides a wide range of services that help our participants keep their independence and live life to its fullest.

What would help you through your day?

Maybe it's personal care aides, home-delivered meals, a ride to the doctor or market, or help modifying your home to meet your mobility needs.

Our goal is to have you continue living in your home and community.

At PA Health & Wellness, we work with you, your caregiver, doctors, and your PA Health & Wellness Service Coordinator to make sure you have access to the services you need most. We want to help make daily life a little easier, and help you on your path to a healthy, happy way of life.
